WEB DEVELOPMENT PROJECTS

Guess the Location

URL: <http://guess-the-location.kentokanazawa.com>

GitHub: <https://github.com/KentoKana/guess-the-location-game>

Project Overview:

- Built mainly with React, Axios, Google Maps API.
- My take on the popular game, "GeoGuessr".
- Retrieves a random street view and asks the user to guess the location by gathering clues from the street view map.

Home Defender

URL: <http://home-defender.kentokanazawa.com>

GitHub: <https://github.com/KentoKana/home-defenders-game>

Project Overview:

- Built mainly with JavaScript, PHP, MySQL and SASS.
- Tower Defense game build during Global Game Jam 2019 with 2 other teammates.
- Built the home page, game UI, and scoreboard feature with score storing logic written in PHP and MySQL.

PROFESSIONAL EXPERIENCES

CANASSIST: TeenWork Program: Job Coach

Winter 2018 – Summer 2018

Provided support for teens with disability to find job placements, with the goals of strengthening their self-confidence and building a stronger sense of identity.

STEPS Forward - BC's Initiative for Inclusive Post-Secondary Education: Inclusion Facilitator

Winter 2016 – Winter 2017

Supported 8 young adults with developmental disability in achieving their goals of leading an inclusive life in the context of post-secondary education at the University of Victoria.
